I. General description

POLANIK landing area cover P-647 is designed to protect the landing area outdoors.

II. Technical specification

Code	P-647
Designed for	W-647
Weight [kg]	20 kg
Construction	made of strong vinyl, welded joints make it very hermetic, equipped with special metal hooks for fastening to landing area

III. Preparing for first use

The cover is ready to use after unpacking.

IV. Assembly

Put cover on the assembled landing area, and then fasten it to the landing area segments with hooks.

V. Operating

Stepping on the cover, treading on it in footwear is strongly prohibited. You must not put any tables, chairs, benches or any other objects whose unit pressure exceeds $1\text{kg}/1\text{cm}^2$ on the covered landing area.

VI. Maintenance

Due to the hygiene requirements it is recommended that the cover should be cleaned regularly with commonly available detergents. Before you start wiping it, please try to clean a small spot on its bottom side in order to check the reaction with the PVC fabric.

VII. Storing

It cannot be bent or pressed by any objects during storing. That may deform it permanently. A storing facility should be clean and dry. The facility ought to provide min. temperature 5° C.
