Thank you for purchasing POLANIK waterproof cover type P-647.

I. General description and use

POLANIK landing area covers is designed to protect the landing area outdoors from rain and other unfavourable weather conditions. Available in three colours: red (001), blue (002) and green (005).

II. Technical specification

Code	P-4255	P-435	P-536	P-636	P-647
Use	W-4255	W-435	W-536	W-636	W-647
Wright [kg]	12,5	13	16,8	18	24
Construction	made of strong vinyl, welded joints make it very hermetic, equipped with special metal hooks for fastening to landing area				

III. Assembly

Put cover on the assembled landing area, and then fasten it to the landing area segments with hooks.

IV. Operating

Stepping on the cover, treading on it in footwear is strongly prohibited. You must not put any tables, chairs, benches or any other objects whose unit pressure exceeds 1kg/1cm² on the covered landing area.

V. Maintenance

Due to the hygiene requirements it is recommended that the cover should be cleaned regularly with commonly available detergents. Before you start wiping it, please try to clean a small spot on its bottom side in order to check the reaction with the PVC fabric.

VI. Storing

A storing facility should be clean and dry.

Even the best technical solutions cannot substitute for common sense. The usage of the product must take place under the supervision of sports facility technical staff. The producer shall not be liable for any incidents caused by the improper assembly or its misuse. The producer reserves the right to introduce without warning changes in product constructions and colours.
